Abha Gaikwad-Patil College of Engineering

Wardha Road, Nagpur-441 108

Title of the Event: Visit to “CSIR –National Environmental Engineering Research Institute”

Date of Event: 14th February, 2018

Aim: To aware the students of the department regarding the R&D activities and the working mechanism of various technologies.

Objective:

1. To have formal introduction of the students to the R & D activities and its environment.
2. To understand the different processes undergoing in new technology.
3. To have practical demonstration of the different advanced topics related to the syllabus.
4. Motivate Students for building up the prototype of different scientific theories as a mini project related to first year Subjects.

Description:

1. The Students of General Engineering visited the CSIR – National Environmental Engineering Research Institute, Nagpur. The students compare the industrial visit with their curriculum (subject of Material Chemistry). From this visit students understood the recent R & D activities undergoing in NEERI. They came to know about the various process and recent technologies. This visit helps them for getting an idea of creating new models related to syllabus by observing scientific theories.
