

## ***Report of Industrial Visit @ AGPCE under the General Engineering Department (2.02.2017)***

---

**Abha Gaikwad-Patil College of Engineering organized Industrial Visit to RELIANCE POWER , Butibori, Nagpur.**

Nagpur, 2<sup>nd</sup> February : Recently General Engineering Department of Abha Gaikwad-Patil College of Engineering has organized a one day industrial visit to RELIANCE POWER , Butibori , Nagpur for the students of first year. The main aim behind arranging this industrial visit was to provide students a glimpse of the production of electricity and to understand general electrical concept.

*Figure 1 - Visit to Reliance Power Plant*

RELIANCE POWER Industries has evolved from the vast experience in the production of electricity. This is basically belongs to Thermal Power Plant. Its generation is ( $2*300=600$  MW). The industry is lead by a team of qualified managerial & technical professionals. Experts from the industry were fascinated by students for their sound technical knowledge, great enthusiasm and keen interest towards production of electricity and offered them industrial training. The coordinators encouraged and appreciated them for this. Prof. Uyesh Mullyamwar assisted in this industrial visit

*Figure 2- Student Visit*

The students showed great interest and enthusiasm in understanding about the working of different parts of Thermal Power Plant and their working principal. Around 40 students from first semester have visited the industry. Vice Principal Prof. Pragati Patil was inspiration behind arranging the visit. The visit was organized by the Head of Department Prof. Ritesh Banpurkar. Prof. Pooja Chimurkar assisted the students in the visit for explaining the various concepts of production of electricity and arranged all the transport facilities.
