

Title of the Event: Seminar on “Industrial Robotics, Cloud Technology & Information Security”

Date of Event: 01 February 2018

Aim: Awareness about fastest growing technologies in the field of Engineering.

Objective:

1. To groom students for the competitive and fast growing sector of Industrial Robotics, Information security and cloud Technology.
2. To focuses on fast-growing, new-age verticals such as Information Technology, Industrial robotics, etc.

Description:

The program was organized by Computer Science Engineering Department for all the branch of B.E. Mr. Anil Tatode (Training Officer, RTMNU’s OCE) was the chief Guest for the program. He focused on fast-growing, new-age verticals such as Information Technology, Industrial robotics, etc.
